

XXIII INTERNATIONAL SYMPOSIUM ON COMBUSTION PROCESSES Rynia, Poland: September 3-6, 2017

INFORMATION

On behalf of the Organizing Committee it is our sincere pleasure to invite you to participate in the XXIII International Symposium on Combustion Processes 2017 which will be held on September 3-6, at Rewita WDW Rynia beautifully situated of the eastern shore of the Zegrzyński reservoir (32 km from the centre of Warsaw), Poland.

Conference is organized by the Institute of Heat Engineering of Warsaw University of Technology and the Polish Section of the Combustion Institute with support of the Thermodynamics and Combustion Committee of the Polish Academy of Sciences.

The International Symposium On Combustion Processes has a long fifty-year tradition. Usually it brings together more than 100 distinguished scientists, leading engineers and young researchers from around the world.

The conference aims to provide a forum for the presentation and discussion of current research activities and challenges in the field of combustion processes. Major topics will be introduced through keynote lectures that will be presented by internationally recognized experts. A set of contributed papers will be selected for post-conference publications in the following journals: Journal of Power Technologies, Archivum Combustionis, Energy&Fuel.

We look forward to meeting you in Rewita Rynia, Poland!

With our best regards,
Sincerely yours,

Prof. Andrzej Teodorczyk, Chair of the 23rd ISCP
Dr Jan Kindracki, Co-chair of the 23rd ISCP
